

KLOV Radio is to us the best music on the radio dial , since the day we accepted Jesus Christ as our savior , we have not listened to any other station . It has such a positive format and is the only station in our area that does not have music with a negative influence . It helps us get our day started in a positive way and we can tune in for a pick me up throughout the day. Most of the people that attend our church also enjoy KLOV .

It would be a devastation to the christian community in this area if you were to decide to replace this station with a LPFM station. Lets look for a moment at how many young people this station influences on a daily basis , I spent 13 years working in a high school setting and can tell you from personal contact with our younger generation that these children and young adults need all of the positive influence that they can recieve in this era of in your face aggression and sexual influence by our media . Please we are just asking you to be BOLD and STAND OUT among todays negative influence , ALLOW A POSITIVE RADIO STATION, KLOV, to stay on the air to help the state of our community by a positive influence on all of us .
